WHO ARE WE?

GNB LAB is a Polish company specializing in the production of cosmetics and nail styling preparations, as well as the import of cosmetic accessories.

Furthermore, we supply the largest cosmetic wholesalers with professional products for nail styling, cosmetology, disposable articles, and accessories.

ABOUT US

GNB LAB is a polish company operating in the cosmetics industry segment, specializing in the production and distribution of nail products.

We operate on multiple levels and we reach every category of customers, both in the mass market (drugstores, hypermarkets, discount stores) and professional market (beauty salons, SPAs), as well as through referral marketing.

We have our own brands and we offer **the creation and production of brands for other commercial entities. We are an importer** of accessories and products used in the cosmetics industry (manicure, hairdressing, and makeup).

Private Label

products in labeled packaging

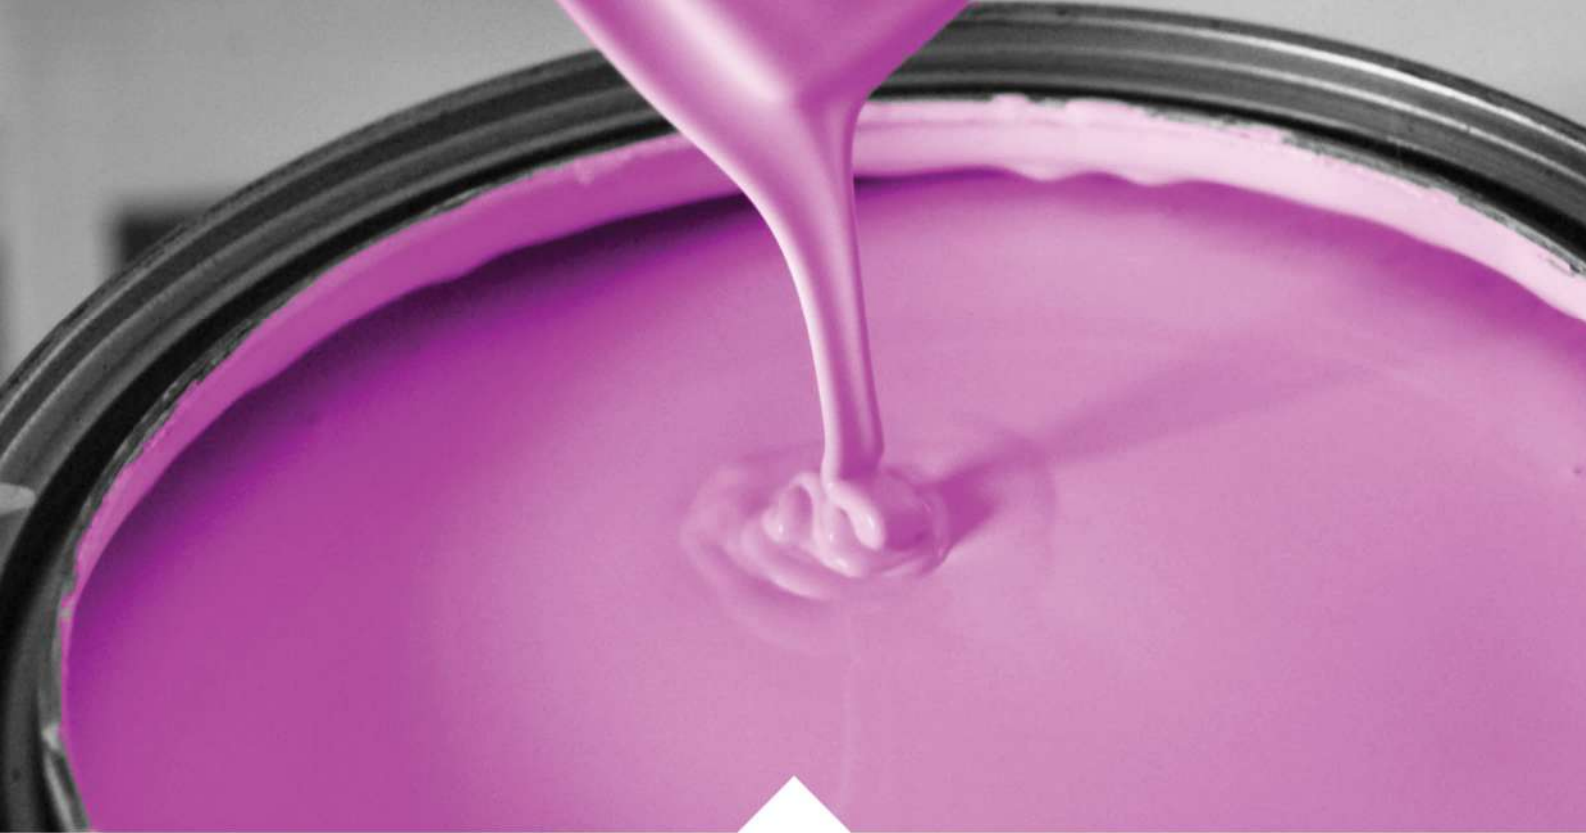

Our "Private Label" services enable the creation of a nail brand with your own label, providing our full support throughout the production process. We focus on ensuring stability and quality of products, customizing them according to individual customer needs.

White Label
products in packaging without labels

2

Our "White Label" offer is ideal for companies that want to launch nail art products under their own brand, but without involvement in the product creation process. We provide ready-made, high-quality products that you can sell under your own name. Our white label solutions allow you to expand your offerings quickly and effectively, while ensuring consistency and excellence in quality.

3

Bulk products in bulk

Bulk service is aimed at business customers looking for UV-curing products or auxiliary liquids essential in the nail industry, without retail packaging. We offer flexible solutions allowing the purchase of our high-quality products in larger batches. This is the perfect solution for companies wishing to process or package products according to their own specifications, while benefiting from our proven quality and reliability.
